#### EYFS Objectives

\*\*\*\*\*\*\*\*\*

Completing this activity with your child helps them reach these age-related expectations:

#### Communication and Language:

To use a wide range of vocabulary.

<u>Understanding the World:</u>

To use all their senses in hands on exploration of natural materials.

To talk about what they see, using a wide vocabulary.

This week the children have noticed lots of things happening outside now that it is Winter. They have commented on how they feel when they go outside. Also, we have discovered that changes are occurring in our water tray and bird bath as the weather gets colder. For your child's home task we would like you to go outside on a very cold day and talk about how they feel and what they can see. Is the ground frosty and icy? What sound does the grass make underfoot? Can they also put out a small bowl of water overnight and see what happens to it - does it turn to ice like the water in our bird bath? Please write down what your child says.

### Name:

# My Winter Walk.

What did you need to wear when you went out?

How did it feel outside?

Talk about what you saw - what did you notice?

What happened to the water that you put out - did it change? How did it feel?
